JOSHUA POMERENKE
Full Stack Web Developer

-Currently looking for a remote website development gig preferably something long term and with the toolset of React and Nodejs.

PROFILE

I'm a 30 year old full stack web developer looking for work to finance the projects that I'm spending my free time on.

Currently working on:

- Converting a school bus into a tiny home

- Working on a personal planner application in React / NodeJS called The Hub.

- Practicing Northern Shaolin Kung Fu

WORK EXPERIENCE

FlannelJaxs - General Manager
09/2019 – 02/2020
-Took a break on programming to focus on my own personal projects as well as learning management skills
- Went from lowest position to general manager in 3 months.
- Started on the ground floor of a business and helped get it up and running.
- Responsibilities / Tasks:

Cash deposits	Customer service
Record keeping	Inventory management
Protocol creation	Product integration
Schedule building	Business organization

Hardin Design and Development - Web Developer
07/2016 – 03/2019
- Developed a large enterprise website for Fischer Solutions (Visual Manager)
- Built visual and analytical tools for large collections of data
- Worked with clients such as Dollar General, IBM, Fedex, HVA, ManagePath
- Full Stack Development using ReactJS, Laravel, and MySQL.
- Collaborated with a team of 4-5 people using Git

eSports Access / Rankr eSports - Head Developer
11/2014 – 04/2016
- Tasked with designing, developing, and maintaining an enterprise website
- Helped delegate tasks to a development team in another timezone and country
-Researched and studied eSports events and highlights
-Full Stack Development using C# and AngularJS
